

To all members in central and east european countries

Dear EAJS member,

the present council decided for the time being to continue its policy of offering free complimentary membership to members from Central and East European countries in case of financial distress. Of course, we should try to make sure that only those who really need this kind of assistance make use of it. If you want to participate in this scheme, please fill in the form below informing us accordingly and return it to our office. Thank you very much for your kind co-operation.
